

Love In Action

Todd Rundgren

No place to hide
And no where to run
Nothing you can do because a change must come
You can't stop it

You got your tail in the air
Your head in the ground
Money, money, money makes your world go 'round
You can't stop it

You can't stop, you can't stop, you can't stop, you can't stop

You can't stop love in action

You just joined the clan
Your head's full of sand
You need a bunch of friends to make you feel like a man
But you can't stop it

Yeah, you could be the last trace of the master race
The nazis really send you to another place
Still you can't stop it
You can't stop love in action
