

Woman's World

Todd Rundgren

It's a woman's world
It's a woman's world, a woman's world

She was the doe who mothered Bambi
I was the brave and magnificent stag
Let's not pretend I'm more than handy
Now that the pussy cat's out of the bag
'Cause it's a woman's world
I was not asked, I was not confronted
But I must admit
In most ways it's the thing that I wanted

Now it's a woman's world, don't get excited
It's a woman's world, 'cause it always was
It's a woman's world, don't fight the feeling
It's a woman's world, a woman's world

She will outlive me, that's for certain
It's a statistical fait accompli
And when I make that final curtain
She'll write an embarrassing book about me
'Cause it's a woman's world
It's been declared, just lower your weapon
And I must admit
It crossed my mind this finally would happen

Now it's a woman's world, nobody panic
It's a woman's world, 'cause it always was
It's a woman's world, and you're gonna love it
It's a woman's world, a woman's world

Every eye gets a little wetter in a woman's world
And every child gets fed much better in a woman's world
We may hold our grudges a little longer in a woman's world
But when we break down the love's so much stronger in a woman's world
And white boy, you come around here
With nothin' but a handful of cash
You need a big black mamma to teach you some manners
And a little blonde to wash your ass

'Cause don't you know that it's a woman's world
It's a woman's world, 'cause it always was
It's a woman's world, take me, I'm ready
It's a woman's world, a woman's world

It's a woman's world
The masquerade is finally over
And I must admit I fell for it
You just have to love her

It's a woman's world
It's been declared, just lower your weapon
And I must admit
It crossed my mind this finally would happen
It's a woman's world
I was not asked, I was not confronted
But I must admit

In most ways it's the thing that I wanted

It's a woman's world
I'm ready now, I'm into the program
And I must admit
I'm trying my best at being a ladies man

In a woman's world, calm down everybody
It's a woman's world, and it always was
It's a woman's world
It's a woman's world, a woman's world

Now it's a woman's world, don't get excited
It's a woman's world, 'cause it always was
It's a woman's world, don't fight that feeling
It's a woman's world, a woman's world

Everybody it's a woman's world, don't nobody freak out
It's a woman's world, 'cause it always was
It's a woman's world, and you're sure gonna love it
It's a woman's world, a woman's world

No surprises, it's a woman's world
It's a woman's world

It's absolutely fabulous
