Todd Snider

Can't Complain

A little out of place A little out of tune Sorta lost in space Racing the moon Climbing the walls Of this hurricane Still overall I can't complain

All I wanted was one chance To let freedom ring They said I had to get a permit Tags and everything I never made it through the red tape I got this paper hat I got a job working weekdays You want fries with that

I got nothin' to lose Cause there's nothin' to gain It's like a one way ticket to cruise in this passing lane I can't complain

I was talkin to my girlfriend I told her I was stressed I said I'm going off the deep end She said give it a rest We're all waiting in the dugout Thinking we should pitch How you gonna throw a shutout If all you do is bitch

I got nothin' to lose Cause there's nothin' to gain It's like a one way ticket to cruise in this passing lane I can't complain

So now I got a brand new dance I need one more shot I just need one last chance I know I won't get caught I gotta make my last stand This time I can't be bought Then again on the other hand How much have you got

I got nothin' to lose Nothin' to gain It's like a one way ticket to cruise that passing lane I can't complain

A little out of place A little out of tune Sorta lost in space Racing the moon
