

# As Young as We Are

Tokio Hotel

Love is all we got  
Love is all we got and we want it all  
Love is all we got  
Love is all we got and we want it all

My face is numb  
I like this place  
Break my heart  
Cut and paste

I'll try to down all my fears in downtown  
Are you down are you with me I wanna fly  
Play my cards, learn the rules, pay my dues  
My world is spinning

I've been on earth  
So many times  
I've seen it all  
I'm alright  
You tell me things  
I wanna hear  
So let us die

As young as we are  
As young as we are  
As young as we are aa  
As young as we are  
As young as we are  
As young as we are  
As young as we are aa  
As young as we are

Goodbye  
Ohoh  
I want it  
You want it  
We want it  
As young as we are

I'm living fast  
I'm on my own  
It's gonna hurt  
Falling into you  
I close my eyes I let go of control cut a line  
I'm in trouble the end is near I don't fear  
Something new something real pop my bubble

I've been on earth  
So many times  
I've seen it all  
I'm alright  
I tell you things  
You wanna hear  
So let us die

(2x)  
As young as we are

As young as we are  
As young as we are aa  
As young as we are  
As young as we are  
As young as we are  
As young as we are aa  
As young as we are

Goodbye  
Ohoh  
I want it  
You want it  
We want it  
As young as we are

Love is all we got  
Love is all we got and we want it all  
Love is all we got  
Love is all we got and we want it all  
Love is all we got

As young as we are  
As young as we are  
As young as we are aa  
As young as we are  
As young as we are
