

We're hanging somewhere downtown, you say hi
You say you miss me and you make sure that I'm alright
You say you figured it out, you say you're better now
You pet my back and say you'd like to spend the night

But I'm better, better, better, better
I'm better off on my own
'Cause I'm better, better, better, better
I'm better off alone
I know I'm better, better, better, better
I'm better off on my own
Because I'm better, better, better, better
I'm better off alone

And I hate that I still care you, hold my hand
Even though I quit, I still want your cigarette
I know we can't work it out
You're always pulling me down
You never knew but no one liked you anyway

But I'm better, better, better, better
I'm better off on my own
'Cause I'm better, better, better, better
I'm better off alone
I know I'm better, better, better, better
I'm better off on my own
Because I'm better, better, better, better
I'm better off alone

Better, better, better, better
I'm better off on my own
Better, better, better, better
I'm better off alone
I know we can't work it out
You're always pulling me down
You never knew but no one liked you anyway

But I'm better, better, better, better
I'm better off on my own
'Cause I'm better, better, better, better
I'm better off alone
