

# Boy Don't Cry

Tokio Hotel

Some big black clouds in my town and  
I can't see out of my window  
I'm all fucked up in the moment  
Spacing out into the zone

I fly alone I get lost tonight  
I'm calling for a commander  
Command my way  
My heart is heavy get me high  
On magic I can't resist  
I can't resist I'm blinded

She's made out of lights  
Made out of lights  
Have eyes  
Text me on arrives  
Made it in time

She said boy don't cry  
She said boy don't cry  
It's such a beautiful night  
Lonely boy don't cry

Oh lonely girl don't let go hold on  
For another adventure  
Stay with me  
Now put your hands in my pocket  
While we're dancing through cold Berlin  
Arthurian

She's made out of lights  
Made out of lights  
Have eyes  
Text me on arrives  
Made it in time

She said boy don't cry  
She said boy don't cry  
It's such a beautiful night  
Lonely boy don't cry

She took me tanzen  
All she wants to do is tanzen  
She took me tanzen  
All she wants to do is tanzen

She said  
Lonely boy take care  
I am everywhere  
I'll see you again  
Back home my friend

Lonely boy I swear  
I am in the air  
I'll save you again  
I'll be there in the end

She said boy don't cry  
She said boy don't cry  
It's such a beautiful night  
Lonely boy don't cry
