

# Don't Jump

Tokio Hotel

On top of the roof  
The air is so cold and so calm  
I say your name in silence  
You don't wanna hear it right now

The eyes of the city  
Are counting the tears falling down  
Each one a promise  
Of everything you never found

I scream into the night for you  
Don't make it true, don't jump  
The lights will not guide you through  
They're deceiving you, don't jump

Don't let memories go of me and you  
The world is down there out of view  
Please, don't jump

You open your eyes  
But you can't remember what for  
The snow will fall quietly  
You just can't feelin' no more

Somewhere out there  
You lost yourself in your pain  
You dream of the end  
To start all over again

I scream into the night for you  
Don't make it true, don't jump  
The lights will not guide you through  
They're deceiving you, don't jump

Don't let memories go of me and you  
The world is down there out of view  
Please, don't jump, don't jump

I don't know how long  
I can hold you so strong  
I don't know how long

Just take my hand  
Give it a chance  
Don't jump

I scream into the night for you  
Don't make it true, don't jump  
The lights will not guide you through  
They're deceiving you, don't jump

Don't let memories go of me and you  
The world is down there out of view  
Please, don't jump, don't jump  
And if all that can't hold you back  
Then I'll jump for you
