

# Feel It All

Tokio Hotel

Strobe lights flashin' out of your eyes  
I can feel you all night  
I won't let you down, down  
Your love breaking into colors  
Touchin' we can't get enough  
You're spinnin' me round and around

Into the sunrise  
Falling away now  
Falling away and we feel it all  
Into the sunrise  
Falling away now  
Falling away and we feel it all

Feel it all  
Don't look back, just let it go  
Feel it all  
Don't look back, just let it go

A new day's comin'  
The time is now  
A new day's comin'

Strobe lights flashing out of your eyes  
I can feel you all night  
I won't let you down, down  
Your love breaking into colors  
Touchin' we can't get enough  
You're spinnin' me round and around

Into the sunrise  
Falling away now  
Falling away and we feel it all  
Into the sunrise  
Falling away now  
Falling away and we feel it all

Feel it all  
Don't look back, just let it go  
Feel it all  
Don't look back, just let it go

A new day's comin'  
The time is now  
A new day's comin'  
The time is now

The time is now

Nothing can break us down tonight  
Nothing can break us down tonight

Feel it all  
Don't look back, just let it go  
Feel it all  
Don't look back, just let it go

A new day's comin'  
The time is now  
A new day's comin'  
The time is now

You and I  
And some we tonight  
You and I  
And some we tonight
