

Zoom Into Me

Tokio Hotel

1. Is there anybody out there
Walking alone
Is there anybody out there
Out in the cold
One heartbeat lost in the crowd

2. Is there anybody shoutin'
What no one can hear
Is there anybody drownin'
Pulled down by the fear
I feel you don't look away

R: Zoom into me
Zoom into me
I know you're scared
When you can't breathe
I will be there
Zoom into me

3. Is there anybody laughing
To kill the pain
Is there anybody screamin'
The silence away
Just open your jaded eyes

R: Zoom into me...

Come closer
And closer

When you can't breathe
I will be there
Zoom into me

R: Zoom into me
Zoom into me
When the world
Cuts your soul into pieces
And you start to bleed
When you can't breathe
I will be there
Zoom into me
