

## Fever

Tokyo Blade

Run for your life, there's danger in the air  
You know the fate  
Can't reason why, look into the past  
But it's too late

Down on the streets, into the depths of the night  
Never, never look back

Fever, fever, fever  
All night long  
Fever, fever, fever  
All night long

Dressed for the kill, blood is running hot  
Again tonight  
Time's running out, all hell's breaking loose  
It's dynamite

Neon lights, battle fights  
No-one stands in the way
