## **Love Struck**

**Tokyo Blade** 

[Boulton/Marsh/Wiggins]

I can't stand it, feels like a heart attack Don't know what's right or wrong Just want the night with you My head explodes, burning fireball Caught in a one way street I imagine the things we can do

[Chorus] Love struck, overload I'm losing my head over you Love struck, overload I'm losing my head over you

Hungry and wild, losing all control I'm being ripped apart But I'm caught in the heat of the night My body screams, I just can't get away I've got the stage tonight, I know that the timing is right

[Chorus] [Solo] [Chorus]
