[Boulton/Marsh]

Listen to the sounds, they fill my head The room goes round and round Calm before the storm, I feel so alone And I know that something's going down

[Bridge]

Down in the streets, the spotlight's shining bright Neon lights, crazy nights, race the shadows to the dawn

[Chorus]
Sunrise In Tokyo (4x)
Tokyo!, Tokyo!

Can't shake it loose, I was born to the night Can't wait for the light with you Candle in the wind, burn it down And wait for the rising sun

[Bridge]
[Chorus]
[Solo]

Race through the night, see the madman approach Look in his eyes chills your bones
Times close at hand, are you waiting to die?
But the face in the window is mine
Oh no

[Solo]
[Chorus]
