

Go My Way

Tom Beck

If you go my way
We might be gone forever
And if you go my way
you might make me a better man
Yeah I've said this words before
But I never meant them more

If you go my way
Every word I say
Won't be an empty promise
I will show you every day
How much it means to me
To finally be with you

Love is a dangerous dance
It could mess you up
If you let it
And if we take this chance
I think we won't regret it
Baby someone let you down before
And you be walking through a different door

If you go my way
Every word I say
Won't be an empty promise
I will show you every day
How much it means to me
To finally be with you

I know my reputation
What will it take to make you see

If you go my way
Every word I say
Won't be an empty promise
I will show you every day
How much it means to me
To finally be with you
To finally be with you

If you go my way
We might be gone forever
