

Love you with my eyes closed

Tom Beck

I know how to listen when you've had a bad day
And I know when it's smarter you and you need your space
I know when be your friend and your lover too

Reading your mind is second nature to me
Threading you right comes so easily
There's not a whole lot about you baby I don't know
I can love you with my eyes closed
Love you with my eyes closed

I know all your deeper secrets nobody knows
I know that little thing to do that ... your
Here we are in the dark but I know my way around
But hard by now

Reading your mind is second nature to me
Threading you right comes so easily
There's not a whole lot about you baby I don't know
I can love you with my eyes closed
Love you with my eyes closed
So lay back and realize
Girl I got you cover

Reading your mind is second nature to me
Threading you right comes so easily
There's not a whole lot about you baby I don't know
I can love you with my eyes closed
Love you with my eyes closed 3x
With my eyes closed 4x
