

What part of forever

Tom Beck

These cobble stone streets make me remember when
You had your high heels on so I had to hold your hand
Then we sat for a while and kissed and watched the boats go by

When you handed your heart to me
You said I'm yours for infinity

What part of forever don't you understand
What part of you doesn't care you're leaving a broken man
How can the sands of time just run out of sand
What part of forever don't you understand

Ooh ooh ooh ooh

When the wind blows it's like when you blew me away
When you said I don't know what this is
But something's changed
I'll never forget how it knocked the breath right out of me

You'd always love me is what you said
Then you just turned around and left

What part of forever don't you understand
What part of you doesn't care you're leaving a broken man
How can the sands of time just run out of sand
What part of forever don't you understand

Ooh ooh ooh ooh

Angel come and take my pain away
So my heart won't completely break

What part of forever don't you understand
What part of you doesn't care you're leaving a broken man
How can the sands of time just run out of sand
What part of forever don't you understand

Ooh ooh ooh ooh
