

Hold On to Our Love

Tom Chaplin

Baby we've been talking
All so insincere
Just to fill the gap
And maybe we're sleepwalking
Down a road of fear
Straight into a trap

Time has come between us
Scratched a hole and let the darkness in
A shadow in between us
It's slowly taking over everything

So we've gotta hold on to our love
Drag our bones from the dust
We have gotta hope we're strong enough
Whatever the world throws at us
We have gotta hold on to our love

So baby let's go walking
Walking hand in hand
Down the road of fear

Well now's the time for talking
The time to understand
How we wound up here

Don't let the world defeat us
Tear the future from the hands of time
Two battle hardened dreamers
Setting out across the cold black night

Yeah we've gotta hold on to our love
Drag our bones from the dust
We have gotta hope we're strong enough
Whatever the world throws at us
We have gotta hold on to our love
