

Deep Breath

Tom Cochrane

Give you everything you deserve
Give you all you need
If I had it all to give
And I'd protect you when you fall
If only that was all that you need
But I need to tell you more
Ley you know how beautiful you are
Keep you from the dangers in the dark
Don't you know let it go
Take a deep breath
That's what I said
Take a deep breath
And you know that you're beautiful
And that's the truth
Have I told you that much lately
When the voices get in your head
You worry about all that's said
Then you give it all again and again
Then you wonder why you're misunderstood
When you give it all sometimes I wish you would
Hold a little back, don't let them at you
Take a deep breath
That's what I said
Take a deep breath

Then you lay awake and wonder how it is
You can't take apart everything you did
You know it's true, I'm here with you
Take a deep breath
That's what I said
Take a deep breath
It's not life of death
Take a deep breath
