

# Rough and Tumble

Tom Cochrane

Lost outside we'd been lost in the rain  
Hard comin' down again  
Lonny stayed back until we all got out  
He never did say much actions talk that loud

Rough and tumble  
Some things you gotta live with  
some things are gonna change  
Rough and tumble  
Some stuff is always gonna fall  
down when you got rain  
Rough and tumble  
With the pain and the pain you learn and you learn then you get up again  
Rough and tumble  
Pick yourself back up and get back in the race in the game  
Rough and tumble  
Rough and tumble  
Rough and tumble  
Rough and tumble

He said Son sometimes the wheels will spin loud enough to make you crazy  
When all hope will leave you and your doubt will make it hazy  
Then you look in your baby's eyes and you know what it's all about  
Won't let you down count me in don't count me out

Rough and tumble  
Some things you gotta live with  
some things are gonna change  
Rough and tumble  
Some stuff is always gonna fall  
down when you got rain  
Rough and tumble  
With the pain and the pain you learn and you learn then you get up again  
Rough and tumble  
Pick yourself back up and get back in the race in the game

Think about Brendon Murphy  
How his dreams might have made him full  
Bet he didn't think it all might end on some  
Dusty road near Kabul  
Kids like him they give me strength  
Get me outside my pride  
Least of all I forget about how  
We all get scared sometimes

Rough and tumble  
Some things you gotta live with  
some things are gonna change  
Rough and tumble  
Some stuff is always gonna fall  
down when you got rain  
Rough and tumble  
With the pain and the pain you learn and you learn then you get up again  
Rough and tumble  
Pick yourself back up and get back in the race in the game

Lonny didn't have long but he went to every game

To get behind his buddies, to get behind the team  
We wondered if it hurt much if it did he didn't say  
Least he wouldn't talk about it  
He just wanted it that way  
Rough and tumble
