

# Always And Forever

Tom Dice

Always on my own, living in the past  
Always trying to be your man, as long as it may last  
I think that you're my destiny and someone separate us

Always on the road, I'm missing you all night  
Always trying to come back home, there's always something not right  
But baby you're my destiny, I'll be there very soon

Now, what's your favourite movie?  
'Cause I'll be coming home soon  
We will be together, always and forever

I am on my way to visit you tonight  
But the detail you don't know is that I'm staying for a while  
And maybe I can never leave 'cause all I want is you

Now, what's your favourite movie? 'Cause I'll be coming home soon  
We will be together, always and forever  
I don't wanna lie girl, every time we touch girl  
I've felt like I'm in heaven, always and forever

How could this ever, I wanted this  
But now I am gone  
I am in heaven and you are on earth  
But I wanted to stay, I wanted to stay

Now, what's your favourite movie? 'Cause I still want to know that  
We could be together, always and forever

And I'm singing this from heaven, 'cause baby I am waiting  
For you to come and say that we are back together  
I don't want to cry girl, missed you for so long girl  
And we can be together, always and forever
