

Lucy

Tom Dice

We both know that my heart will never change
You controlled it too long
Very slow, you were going your own way
And I was always wrong, so wrong

But Lucy I love you, why don't you love me?
I will be waiting
My heart is empty 'cause you're not with me

We both know that I'm not the one to blame
You're too blind to see, Lucy
And every day I tell myself these things don't change
Will you come back to me, maybe?

'Cause Lucy I love you, why don't you love me?
I will be waiting
My heart is empty 'cause you're not with me
I'm still aching
Lucy when I see you, I wanna be with you
I will be waiting
My heart is empty 'cause you're not with me
I'm still aching

Mirror, mirror on the wall, should I be afraid?
Tell me, mirror, what went wrong? Tell me
Oh, please do tell me

But Lucy I love you, why don't you love me?
I will be waiting
My heart is empty 'cause you're not with me
I'm still aching
Lucy when I see you, I wanna be with you
I will be waiting
My heart is empty 'cause you're not with me
I'm still aching

Lucy I love you, when will you love me?
I'm still waiting
