

# Utopia

Tom Dice

Here in this place,  
everything's hard,  
all the roads seem to lead us nowhere  
we're a million smiles that never seem to work  
but there is a space  
deep in your heart  
just close your eyes and we can go there  
it's a million miles away from all this hurt

I-I will light the way  
and I, won't let you fall

We're almost there  
so don't give it up just yet  
I know it's been hard darling  
hold on it's not too far  
Utopia

Let's break a way  
bury these scars  
all of these hearts are closed for repair  
but we'll find some peace and leave this world behind

I-I will light the way  
and I won't let you fall

We're almost there  
so don't give it up just yet  
I know it's been hard darling  
hold on it's not too far  
Utopia  
Almost there,  
no don't give up, not yet  
you're falling apart now but surely it's not too far  
Utopia

Utopia, Utopia, Utopia

Aaaaaaah, don't let it go, don't let me go  
come on!  
Aaaaaaah, don't let me, don't let me go

we're almost there...  
so don't give it up just yet  
I know it's been hard darling  
hold on it's not too far  
Utopia  
Almost there,  
no don't give it up, not yet  
you're falling apart now but surely it's not too far  
Utopia
