

Why?

Tom Dice

I've been waiting for a girl like you
Why did you leave?
It was amazing when you saved me from my disease
Why did you leave?
I need you to stay with me
I am worth it, don't leave me this time
And I promise myself to be all what you need till the day I die

Tell me why are you saying goodbye
I am missing you already
Please don't leave

I've been searching for a girl like you
Why did you leave?
It was a nightmare when you closed the door behind you and never came back
I need you to listen to me for the last time
I've made some mistakes
But I promise myself to be never again like I was for a while

Tell me why are you saying goodbye
I've been missing you everyday
Of my life

Tell me why
are you saying goodbye
I've been missing you everyday of my life
Stop saying goodbye
I've been missing you everyday of my life

I've been searching for a girl like you
Why did you leave?
