

# Sleepless Nights

Tom Helsen

I guess the time has come to spill it  
With the kindest regards  
The word is out in the village  
Nothing you had in mind

Close the door as you leave  
We never made it  
And it comes and falls from above  
Sleepless nights

I guess you never seen it work  
Know that it won't last  
Cause everything that keeps you humble  
Breaks your arms and legs instead

We will all drown and...  
I'll keep my word  
I will never let it happen to you
