

The Truth About That Girl And Me

Tom Helsen

Baby how you doing
Are you waiting up for me
I got you where I want you
I know it's not easy
Baby how you doing
Are you nervous just like me
Its coming down, coming down
in a way you've never seen

No I don't wanna be
the one to tell you
Don't make it so hard on me

No I don't wanna be
the last to tell you
the truth about that girl

Is it any wonder
that I am still afraid
I know I did the right thing
at least that's what they say
Any day now
I know it won't take long
before you see the light of day
cause its coming on so strong
