

Fly Away

Tom Jones

The rain is falling down
My life has just begun
'Cause you shine a light
To make me come alive

And when the moon
Holds a candle in the sky
I wanna be with you
Together through the night

Why don't we fly away
Hand in hand against the sky
Why don't we fly away, you and I

Fly away to a place
Where our dreams will never die
Why don't we fly away, alone

Let's fly away, far far away
Let's fly away

I wouldn't wanna go to heaven
Without you by my side
You're my angel
You're my guiding line

Now that we've come this far
To reach this paradise
Supernatural is love, is right

Why don't we fly away
Hand in hand against the sky
Why don't we fly away, you and I

Far away to a place
Where the time is on our side
Why don't we fly away
Long gone, long gone

Let's fly away, let's fly away alone
Let's fly away alone

Why don't we fly away
Hand in hand against the sky
Why don't we fly away, you and I

Far away to a place
Where our dreams will never die
Why don't we fly away

Let's fly away alone, let's fly away alone
Let's fly away alone, let's fly away alone
Let's fly away, let's fly away
Let's fly away, let's fly away

Let's fly away, let's fly away
Let's fly away, let's fly away

Let's fly away, let's fly away
Let's fly away
