

Give A Little Love

Tom Jones

I got myself by an obsession
It's on another dimension
Don't need a whole at protection
'Cause it give me all I've been getin'
It give me life, hope, dreams, golds, you know

You've got to give a little a love, give a little a love
Go on just do it, you can't confuse it
Give a little a love give a little a love
Go on and do it, Go!

Leaving in a wolrd when is plenty
So how I come running and empty
When we been touch by so many
And still there's more without many
Without any life, hope, dreams, golds, you know

We've got to give a little a love, give a little a love
Go on just do it, you can't confuse it
Give a little a love, give a little a love
Go on just do it, go!

You know you got to do what you can
You know you got to try to understand

You've got to give a little a love, give a little a love
Go on just do it, you can't confuse it
Give a little a love give a little a love
Go on and do it, Go!
