

## Give A Little Love

Tom Jones

I got myself by an obsession  
It's on another dimension  
Don't need a whole at protection  
'Cause it give me all I've been getin'  
It give me life, hope, dreams, golds, you know

You've got to give a little a love, give a little a love  
Go on just do it, you can't confuse it  
Give a little a love give a little a love  
Go on and do it, Go!

Leaving in a wolrd when is plenty  
So how I come running and empty  
When we been touch by so many  
And still there's more without many  
Without any life, hope, dreams, golds, you know

We've got to give a little a love, give a little a love  
Go on just do it, you can't confuse it  
Give a little a love, give a little a love  
Go on just do it, go!

You know you got to do what you can  
You know you got to try to understand

You've got to give a little a love, give a little a love  
Go on just do it, you can't confuse it  
Give a little a love give a little a love  
Go on and do it, Go!
