

I Get Carried Away

Tom Jones

I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much

This has never happened before
The moment you walked through that door
Baby what you're doing to me
But keep it up eternally

'Cause I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much

Yes I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much

Woh, I beg you not to lead me on
Unless your love is true
Don't take advantage of me
It's not the way it should be
I'm hopelessly in love with you

Tell me you know the way that you feel
I've got to know your love is real
Baby tell me your love is true
I need to hear the words from you

'Cause I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much
'Cause I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much
Uh!Yes! Oww!
I get carried away with your kisses
Carried away by your touch
I get carried away 'cause I love you so much
