

In A Woman's Eyes

Tom Jones

A man can reach the top, suddenly he'll drop
And to the world, he may not mean a thing
But in a woman's eyes, oh baby, in a woman's eyes
He still means everything

He may not find a friend who'd ever stand by him
His faults are there for all the world to see
But in a woman's eyes, yes darlin', in a woman's eyes
He's everything a man should be

A woman's eyes are blind to faults the world may find
And she'll stand by, whatever comes along
Oh baby, a woman's eyes can see the good the world can't see
And she believes her man can't do no wrong

Oh, people, let me tell you know

Although my life, it seems, falls short of all my dreams
Her love is there for all that I really need
Cause in a woman's eyes, oh baby, in a woman's eyes
I'm everything a man should be
I'm everything a man should be
Come on baby, I'm everything a man should be
