

# Lady Lay Down

Tom Jones

Too many times I didn't try to hold you  
I never kept the promises I told you  
Now it's time I give in I know  
To the words that I should have said long ago

Lady lay down beside me  
Wrap your love around me  
I need you to stay  
Don't turn away from me now  
Lady lay down

You've been alone  
I guess I've known about it  
You gave me love  
And learned to live without it  
Now that you've turned to go  
Let me beg you to stay  
The best way I know

Lady lay down beside me  
Wrap your love around me  
I need you to stay  
Don't turn away from me now  
Lady lay down
