One Day Soon

Promise me You will wait for me

One day soon, I'll come back And I'll stay forever more Wait for me Say, you'll wait for me

One day soon, we'll wander Where we've never walked before Say to me You will wait for me

When the winter's through Once more, I looked into your eyes I will fly to you Upon the wings of butterflies

One day soon, I'll see you And I'll kiss away your tears Promise me You will wait for me

Say we'll and we'll see every dream come true Wait for me Wait and I will come back to you One day soon

Tom Jones
