

What You Been Missing

Tom Jones

Forget about the past
You won't regret it
This time we'll make it last
You can put 'cha money on it
Gonna move in with ya
Your body needs my kissin'
And honey when I get ya
You'll know what you've been missin'

I don't need a jury
I'm willing to take the stand
Guess I'm guilty
Say you'll understand

Babe, know what you been missing, babe

Why don't we kiss and make up for the time we blew
What could be better babe - better babe - better babe
Than love part two - me and you

I don't need a jury
I'm willing to take the stand
Guess i'm guilty (guilty)
Say you'll understand

Baby, know what you been missing, baby
Come on back to your lover-man, oh, your lover-man, babe

Darling. I'm pleading don't leave me in the cold
You're all I want to hold.... Girl

Forget about the past
You won't regret it
This time we 'Il make it last
You can put 'cha money on it
Gonna move in with ya
Your body needs my kissin'
And honey when I get ya
I'll give you what you been missin

What you been missin' baby
So come on back to your lover-man, your lover-man, babe

Forget about it
You won't, yes you will
Aha, movin baby
Yes it does
Aha, come on now
