

# Anytime

Tom Paxton

Anytime your trail takes you to the trees  
And anytime those icy winds begin to freeze  
If you need a little sunshine, all you've got to do is call  
Anytime, anytime at all.

Anytime you feel you're running out of road  
And anytime you feel smaller than your nose  
There's a safe haven here where you can ride out the storm  
Anytime, anytime at all.

If you've got a problem, I got a problem too  
All I want's a chance to show what a little love can do  
Come on over here darlin', tell me what's been making you blue  
I want to make things better for you

Anytime it gets a litte rough out there  
And anytime you really need someone to care  
You just circle the wagons till you hear the bugle call  
Anytime, anytime at all.

If you've got a problem, I got a problem too  
All I want's a chance to show what a little love can do  
Come on over here darlin', tell me what's been making you blue  
I want to make things better for you

Anytime it gets a litte rough out there  
And anytime you really need someone to care  
You just circle the wagons till you hear the bugle call  
Anytime, anytime at all.

Anytime, anytime at all.
