

## Something In My Life

Tom Paxton

There is something in my life today  
There is something that I'm sure is here to stay  
It's all because of you, you know  
And since you came my way  
There is something in my life today  
There is something that I'm sure you know  
There is something in your smile that tells me so  
And even as I say it, I can see the smile grow  
With that something that I'm sure you know  
How'd you like to hear my deepest secret  
No one ever heard these words from me  
Not from a lack of longing to say - I love you  
But the words wouldn't come till you came to me  
Now there's something so completely new  
And it's all to do with love, and loving you  
And everything is changing, now  
In ways I never knew  
Since I found myself in love with you  
How'd you like to hear my deepest secretu  
No one ever heard these words from me  
Not from a lack of longing to say - I love you  
But the words wouldn't come till you came to me  
Now there's something so completely new  
And it's all to do with love and loving you  
And everything is changing, now  
In ways I never knew  
Since I found myself in love with you  
Oh it's all to do with loving you  
Since I found myself in love with yo
