

Casa Dega

Tom Petty

Well, the clouds go by in the big blue sky
As the sun beats down on Casa Dega
And the moon pulls the tide and the tide brings night
But night is more than just a night in Casa Dega

Oh baby, now I think I'm starting to believe
The things that I've heard
'Cause tonight in Casa Dega
I hang on every word

That she said to me as she holds my hand
And reads the lines of a stranger
Yeah, and she knows my name, yeah, she knows my plan
In the past, in the present and for the future

Oh honey, now I think I'm starting to believe
The things that I've heard
Cause tonight in Casa Dega
I hang on every word

That she said

Baby, fools pay the price of a whisper
In the night in Casa Dega
Time rolls by, night is only night
Can I save you?

Yeah, more than just a night
