

How Many More Days

Tom Petty

There is something, little darling
That I want you to know
My, I love you, yeah, I need you
Every night, every day goes so slow

How many more days?
Till I see you again
How many more days?
Till I see you again

Yes, I remember you smiling
I remember you feeling mighty fine
I remember your kiss, I remember your touch
I can't get you out of my mind

Little girl, how many more days?
I want to see you again
But how long will that take?
I wanna see you again

Oh babe, can't you see? I'll be honest with you
Please, don't lie, babe, please, don't smile
Please, don't play around with this heart of mine

Can't you see? It's what I want, babe
It's more than that, it's something I need
Oh little darling, please be truthful
Please be faithful, please, come now to me
Oh baby, I need to see you again

Please remember, little lover
I'll give the good to you
Please remember my little lover
I'll be good to you

But how many more days?
'Til I can see you again
How long will that take, girl?
I can just see you again

Oh, how many more days?
I need to see you again
Please, don't make me wait
I wanna see you again
