

Little Girl Blues

Tom Petty

If all your dreams
don't come true
if what you need
don't come through
then don't blame me

You be a good little girl
you get what you want
you be a good little girl
you get what you want
yeah, you get what you want

If every wish
don't fix your plans
and if you need
another man
don't blame me

You be a good little girl
you get what you want
you be a good little girl
you get what you want
yeah, you get what you want

You got a train
off the track
you got a doctor
who won't call back
yeah, you crave affection
that is never enough
well, it's one, two,
fall in love

If your friends
don't call no more
if no one's knockin'
on your door
then don't blame me

You be a good little girl
you get what you want
you be a good little girl
you get what you want
yeah, you get what you want

Oh baby
