

Makin' Some Noise

Tom Petty

When I was a young boy, I was workin' for the state
I wasn't makin' much money, I was stayin' out late
Go down at nighttime, play music in the bars
Take my breaks out underneath the stars

I was makin' some noise, I was a workin' boy
Up at the top of my voice
Sayin', "Look at me mama, I'm makin' some noise"

I had to rock the boat, I had to shake the tree
To see what'd fall down on me
I thought, "Maybe I can make it or if I never give in
I been down before, I ain't goin' down again

I'm makin' some noise, I been a worried boy
Up at the top of my voice
Sayin', "Look at me mama I'm makin' some noise"

From across the Canyon a guitar plays
Through an amplifier on long delay
It was an old melody, I recognized the song
I had an amplifier too and so I played along

I'm makin' some noise, I'm still a working boy
At the top of my voice
Sayin', "Look at me mama, I'm makin' some noise"

I'm makin' some noise, I've been a long gone boy
At at the top of my voice
Sayin', "Look at me mama, I'm makin' some noise"

I'm makin' some noise
I'm makin' some noise
