

The Dark of the Sun

Tom Petty

In the dark of the sun
Will you save me a place?
Give me hope, give me comfort
Get me to a better place

I saw you sail across a river
Underneath Orion's sword
In your eyes there was a freedom
I had never known before

Hey, yeah, yeah, in the dark of the sun
We will stand together
Yeah we will stand as one
In the dark of the sun

Past my days of great confusion
I past my days of wondering why
Will I sail into the heavens?
Constellations in my eyes

Hey, yeah, yeah, in the dark of the sun
We will stand together
Yeah, we will stand as one

Hey, yeah, yeah, in the dark of the sun
We will stand together
Yeah, we will stand as one
Oh, in the dark of the sun

Hey, yeah, yeah, in the dark of the sun
Oh, in the dark of the sun
