We Stand a Chance

Stand back from me honey Because I don't know what I might do next No I'm surprised by this, frightened by this Nothin' ever got me so out of my head, baby

[Chorus:] We stand a chance We stand a chance Yeah, and I could be wrong, but you never know We could stand the chance of a real love

Oh, God knows I love you God knows I do Baby will you let me just prove it to you Come here to me baby, come here to me now I wanna talk to you, talk to you And tell you somehow, that

[Chorus]

I'm so moved, I'm so changed My whole world is a funtain of flame

[Chorus]

Tom Petty
