

You and Me

Tom Petty

Take a look
At what I've got
I can't promise
You a lot

But you and me
And the road ahead

I can't save
You from yourself
You gotta want it
All that's left

Is you and me
And the road ahead

Wherever that wind might blow
Wherever that river rolls
You know I will go with you

Lookin' over
The mountain's crown
The water roars
And tumbles down

Like you and me
And the road ahead

Wherever that wind might blow
Wherever that river rolls
You know I will go with you

Just you and me
And the road ahead
Just you and me
And the road ahead
