

On, On, On, On...

Tom Tom Club

I'm living proof, I love you
I know the truth, so do you

On and on we will come
There are scores of us
On and on, here we come
There are more of us

Down to my roof, I need you
You're living proof, make your move

On and on we will come
There are scores of us
On and on, here we come
There are more of us

You are the youth, we're with you
We're living proof, what we can do

On and on we will come
There are scores of us

On and on we will come
There are scores of us
On and on, here we come
There are more of us

On and on
