

## On, On, On, On...

Tom Tom Club

I'm living proof, I love you  
I know the truth, so do you

On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us

Down to my roof, I need you  
You're living proof, make your move

On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us

You are the youth, we're with you  
We're living proof, what we can do

On and on we will come  
There are scores of us

On and on we will come  
There are scores of us  
On and on, here we come  
There are more of us

On and on
