

A Little Word In Your Ear

Tom Vek

Last night I had a dream about everybody here
You were all wearing small spin tops in a opening sea
Looking at me kind of strange cause I was wearing old jeans
Talking to each other, cigarettes with smoke have no smoke to b
low

That day
A little word in your ear
That day
A little word in your ear, girl
That day
A little word in your ear
That day
A little word in your ear, girl

You got the days mixed up in your diary
You send a moment back to have it redone
Because you see, but I know that you never see to me
Comes to my attention that when you talk you always talk

That day
A little word in your ear
That day
A little word in your ear, girl

A little word in your ear, come on
A little word in your ear, girl
A little word in your ear, come on now
A little word in your ear

That day
A little word in your ear
That day
A little word in your ear, girl
That day
A little word in your ear
That day
A little word in your ear, girl
