In Between Love

Tom Waits

In between love and trying to scheme love Who can tell what we may find Never thought love, not get caught love Between the magic in your eyes And loves like women, it's cool and breezy Never thought that love could be so easy

In between love and trying to scheme love And in between love again

In between love and trying to scheme love Who can tell what we may find All this time love, I sublime love To the feelings in my mind Loves like women, it's cool and breezy Never thought that love could be so easy

In between love and trying to scheme love And in between love again
