Makin Me Crazy

Tommy Lee

Seasons change And you remain to find me here A parting gift You woke me to how I can feel Cause its in your hands I heal Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin So say the words Say the words I want to hear Oh yeah Cause I've the faith Even if my bloods unclear I've no more desire to fear Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin I love it when you say and maybe I love it when you make me crazy I love it when you say and maybe I love it when you make me crazy Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin Where the hell you been? Wish I'd met you then Let you in Lovers Start as friends hope this never ends Lets begin Ohh yeah yeah Lets begin

I love it when you say and maybe I love it when you make me crazy I love it when you say and maybe I love it when you make me crazy
