

# Memphis Me

Tommy Roe

I loosen up my collar when it's warm outside  
And I wear a heavy coat when it's cold  
I call up the doctor when my fever's high  
See a tailor when my suit gets old

And when I need a little company  
There's only one girl I wanna see  
And she lives in Memphis, Tennessee  
I think I'll Memphis me  
One more time, yeah, yeah  
Memphis me, one more time

It's early in the morning in Birmingham  
And I wish that I could stay in bed  
'Cause I'm dreaming that she's with me here where I am  
And I know it's only in my head

When I need a little company  
She's the only girl I wanna see  
But she lives in Memphis, Tennessee  
I guess I'll Memphis me  
One more time, yeah, yeah  
Memphis me, one more time

A farmer has to live where his crops will grow  
And a peddler has to sell his wares  
The children need to learn what the teachers know  
Everybody needs someone who cares

So when I need a little company  
There's only one place for me to be  
And it's here in Memphis, Tennessee  
I had to Memphis me, one more time, yeah, yeah  
Memphis me, one more time, yeah, yeah  
One more time, Memphis me  
One more time
