

# Love Me Like You Hate Me

Tone Damli Aaberge

Let's break it down, Let's smash ourselves to the ground  
Don't say it's getting better  
When I make up truth, the option is to loose or lose  
Don't say it's getting better

When I come home late, you look at me with broken eyes  
Don't say it's getting better  
When we go to bed, you roll over and fade away  
Don't say it's getting better

When I wanna go, you wanna stay, but we have promised not to end this way  
Without a word you're screaming the love apart  
Don't say it's getting better

Sometimes when you and me, go blind suddenly  
No one admits they're wrong  
Love me like you hate me  
In a storm I'm telling you  
You and I can't be though  
I may have caused this mess  
You gotta love me like you hate me  
Love me like you hate me  
Love me like you hate me, hate me

So we broke it down, We're lying here on the ground  
Don't say it's getting better  
We're gonna drown unless we start breathing now  
I think it's getting better  
If you wanna stay, I gonna stay cause we have promised not to end this way  
With our words, we're healing these broken hearts  
I think it's getting better

Sometimes when you and me, go blind suddenly  
No one admits they're wrong  
Love me like you hate me  
In a storm I'm telling you  
You and I can't be though  
I may have caused this mess  
You gotta love me like you hate me  
Love me like you hate me  
Love me like you hate me, hate me

Let's make this time we spent fighting, not be wasted time  
If we could turn away form anger  
And leave this all behind

You gotta love me like you hate me  
You gotta love me like you hate me  
You gotta love me like you hate me, me, me

Sometimes when you and me, go blind suddenly  
No one admits they're wrong  
Love me like you hate me  
In a storm I'm telling you  
You and I can't be though  
I may have caused this mess  
You gotta love me like you hate me

Love me like you hate me  
Love me like you hate me, hate me
