

There's Only One

Tones on Tail

Eno ylno s'ereht
Eno ylno s'ereht
Eno ylno s'ereht

You want two, he wants three
They want four, there's only one
There's only one

Colored flies and Cadillacs
Ninety nines or soft hatchbacks
Take only one, take only one

Black or white, right or wrong
Up two flights and still as strong
There's only one, there's only one

Up and down and up, up, up
Freeze, frame, smash, then rip it up
Take only one

Sixteen bars and greasy spoons
Big blue and popcorn tunes
Take only one, take only one
Take only one, take only one, take only one

You want two, he wants three
They want four, there's only one
Colored flies and Cadillacs
Ninety nines or soft hatchbacks, take only one

Black or white, right or wrong
Up two flights and still as strong
There's only one

Up and down and up, up, up
Freeze, frame, smash, then rip it up
Take only one, take only one
Take only one, take only one, take only one

Oowow , there's only one
You want two, he wants three
They want four, there's only one

You want two, he wants three
They want four, there's only one
You want two, he wants three
They want, there's only one, there's only one

Baby I'll stop
There's no intelligent life down here
There's only one
