Seasons

Just like winter snows That's the way seasons come and go Just like the autumn leaves fall That's just the story of us all

Seasons, seasons, seasons Seasons, they come and they go Heaven may pass away but Your Word will never change

There will be times when you Don't have a confidant in view Just hold your head up high For your redemption draweth nigh

Seasons, seasons, seasons Seasons, they come and they go You just stand your ground when life deals you a bad blow

Seasons, seasons, seasons Seasons, they come and they go All of my appointed times I'm gonna wait until my change comes
